

# How to Synchronize SafeAssign in Your Blackboard Course

To synchronize your course if your students report problems using SafeAssign, please complete the following steps:

1. In the Control Panel, click the link Safe Assign in the Course Tools panel.
2. In the SafeAssignments screen, locate the link “Synchronize this course” on the right side of the screen as shown in the image below.

3. Have students submit documents to SafeAssign and see if they are successful.
