  - Group 2: PVCC is dedicated to student success. Yet currently, only half of the students who declare a major either graduate or transfer. The success rate is lower for part-time students and students who must enroll in developmental education. How can PVCC increase student retention and student success?

What new programs are needed to prepare individuals for current or future careers/jobs in our service region? How can PVCC better serve the employers in our region?

5. Personnel

Each group is also asked to brainstorm answers to the following questions posed by Bruce Dotson:

“PVCC is doing very well and could certainly be described as one of the best in the State. But...what event/circumstance/change might come along that could threaten our success? How can we take steps to either prepare for this or to mitigate its impacts? Then the flip, what...might come along that could give us major new opportunities for growth and success? What steps can we take to prepare for this or to encourage its occurrence?”
