PVCC is a designated Pearson VUE Authorized Test Center site. Pearson VUE Authorized Test Centers are privately owned, third-party testing facilities which provide on-site, on-demand testing for certification and professional licensure exams.

As one of the only Pearson VUE Authorized Testing Centers in the Charlottesville area, this well-respected authorization gives PVCC the ability to test students and area citizens pursuing key industry certifications such as CompTIA, Microsoft and important academic exams such as the Virginia Communication and Literacy Assessment (VCLA) and the GED®.

PVCC has two Pearson VUE Test Centers: one on the college’s Main Campus, which is housed in the First Quadrant Math Center (M253 in the Main Building) and one at the TJACE@PVCC Adult Learning Center at IX Art Park. Both sites are open to the general public.

Learn more at www.pvcc.edu/pearson.
PVCC’s Workforce Services Division provides programming and short-term training for industry certification, professional development, career advancement, personal enrichment, and youth career education. Popular programs include allied healthcare offerings such as phlebotomy and certified nursing assistant (CNA); viticulture and craft brewing; unmanned aerial systems (UAS); commercial driver’s license (CDL) training; welding; and business courses. Learn more at www.pvcc.edu/workforce.

According to the National Skills Coalition, almost half of the job openings in Virginia between 2010 and 2020 will require some post-high school education, but not necessarily a bachelor’s degree. To land these jobs applicants need industry-recognized credentials, certifications and licenses. These programs are called “FastForward” because they help Virginians train for fulfilling new careers in weeks or months, instead of semesters or years. FastForward programs are offered at PVCC and other VCCS colleges. Limited funding is available for select programs. See a list of eligible programs or learn more at www.pvcc.edu/fastforward.

What is Network2Work?
Network2Work, formerly known as the Charlottesville Works Initiative (CWI), is a job network that connects job seekers to the skills and resources they need to become valued employees, and helps employers find the quality employees they need for their companies. Network2Work is a partnership between PVCC and the Charlottesville Regional Chamber of Commerce.

Why is Network2Work important?
In Charlottesville and Albemarle, 12,024 families, or 19 percent, do not make enough money to pay for the essentials of life—food, shelter, clothing, utilities and the added costs associated with working, such as childcare and transportation. The goal of PVCC’s Network2Work program is to help these families become self-sufficient by identifying jobs within their reach and positioning them to secure and excel in those jobs.

What areas are served by this program?
PVCC’s program serves the college’s entire service region, which includes the City of Charlottesville and the counties of Albemarle, Buckingham, Fluvanna, Greene, Louisa and Nelson.

PVCC offers two culinary arts options at its Jefferson School Center satellite location.

SPOTLIGHT

Katrina
Hometown: Louisa, VA
Majors: Nursing (May 2019), General Education (December 2019)

Why she chose PVCC: "PVCC has a great reputation in the area for being a top notch, although very difficult, school for the medical fields, primarily in Nursing. This is what influenced my decision to attend PVCC."

What she likes best about PVCC: "The instructors are awesome and really want you to learn and succeed, the smaller class sizes (as opposed to a 4-year college) enable a great environment for learning and having accessibility with your instructor. I have also utilized many of the extra services at PVCC, such as veterans’ affairs, student success, career development and financial aid, which were always so helpful!"

Future plans: "I hope to start working in the Emergency Department or Surgical Trauma Intensive Care Unit at UVA Health Center this winter (2020), and hopefully one day become the flight nurse for the emergency transport helicopter, Pegasus."

ALUMNI SPOTLIGHT
Susan Kabadi
Major: Diagnostic Medical Sonography (May 2017)
Employer/Role: University of Virginia Health System, Diagnostic Medical Sonographer
Tell us about your job: “My favorite part about my job is having the opportunity to help others. I am motivated each day to perform my best work since many of the medical findings made through Ultrasound imaging are significant. I also enjoy the technical aspect of the field and keeping up with new applications in development.”
How did PVCC prepare you for your job? “PVCC gave me a comprehensive education in Sonography through their hands-on teaching approach as well as their didactic instruction in the classroom. Throughout the program, I was able to integrate what I was reading in textbooks with what I was learning to scan. I also had the opportunity to rotate through several clinical sites ranging from outpatient centers to large academic hospitals. This allowed me to be exposed to different workflows, equipment and techniques. Further, it gave me the opportunity to scan many different patients and build upon the foundation that was provided in the program.”
