

Kid's College Enrollment Report

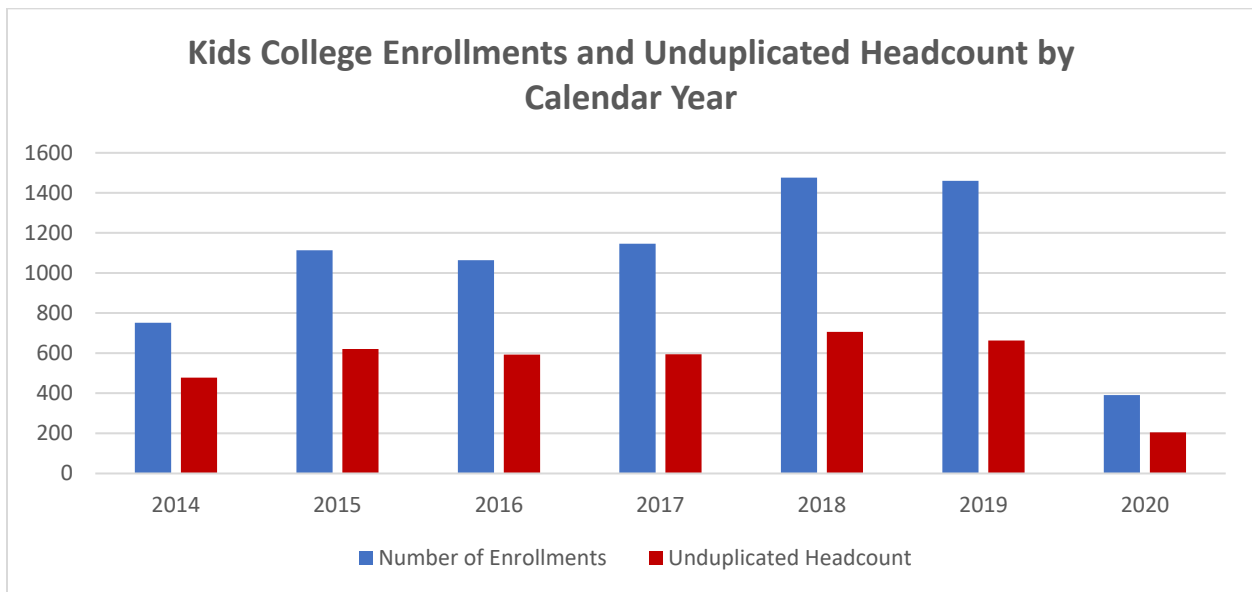

Purpose and Background: The purpose of this research was to determine enrollment and headcount trends for Kid's College. Kid's College participants are 1st through 9th grade students. Kid's College began in the Summer of 2010 with participants enrolling in subsequent summers.

Methodology:

The past seven calendar years (Spring, Summer and Fall semesters of the same year) were examined to determine enrollment, unduplicated headcount, and average number of enrollments per Kids College student.

Results:

When examined by calendar year (i.e. Spring, Summer, Fall), the number of enrollments and unduplicated headcount continued to increase.

<u>Calendar Year</u>	<u>Number of Enrollments</u>	<u>Unduplicated Headcount</u>	<u>Number of Enrollments per Student</u>
2014	752	478	1.57
2015	1,113	621	1.79
2016	1,064	593	1.79
2017	1,146	594	1.93
2018	1,476	706	2.10
2019	1,460	663	2.2
2020**	391	205	1.9
Total	7402	1748*	4.2

*Unduplicated across the calendar years

**Calendar Year 2020 is an outlier. Kid's College was moved to all virtual classes due to COVID-19.

Kid's College Enrollment Report

Classes Offered in the Most Recent Calendar Year:

3D Game Design with Unity	FL CSI Detectives	Minecraft Modders
3D Printed Action Figures	FL Jewelry Making	Minecraft Redstone Engineers
Adventures in Home Engineering	FL STEM Toy Making	Photography-Eyes on Your World
