CONSTRUCTION ALERT

Piedmont Virginia Community College (PVCC)
Woodrow W. Bolick Advanced Technology and Student Success Center

ITEMS OF INTEREST:

- Starting on Monday, July 8, 2024, the contractor will start streetscape work activities along College Drive. Work activities include, but are not limited to, the installation of curb and gutter, sidewalks, sidewalk curb cuts, asphalt paving, speed tables, vehicular and pedestrian striping.
- The current College Drive vehicular traffic pattern will be narrowed to one lane during work activities as shown in the yellow highlighted area, see Exhibit 1 on page 2.
- Flagman will be present to direct inbound and outbound vehicular traffic.
- College Drive will return to two-way vehicular traffic pattern at the end of each day.
- There will be typical construction equipment noise associated with this work.

BACKGROUND:

The Woodrow W. Bolick Advanced Technology and Student Success Center at Piedmont Virginia Community College (PVCC) will include advanced manufacturing and robotics labs, cyber-security and forensics labs, and active instructional spaces. In addition, the Center will create a hub for admissions, advising, and career services as well as a welcoming, student-centered commons with a café, student group spaces, a veteran’s resource center, and a large event room with improved outdoor public spaces for multi-use programming. The Center will be the first higher education facility in Virginia, and one of just a handful of community college facilities in the United States, to achieve net zero energy.
Exhibit 1

In the yellow highlighted area, the current College Dr. vehicular traffic pattern will be one lane during construction activities. Flagman will be present to direct inbound and outbound traffic.

In the red highlighted area, the road will remain closed to vehicular traffic.
