Writing Intensive Course (WIC) & Civic Engagement (C)

Students entering all degree programs are required to take one Writing Intensive Course & Civic Engagement Course in order to graduate. All Writing Intensive Courses require the successful completion of ENG 111 and ENG 112 with a “C” or better.

Approved Writing Intensive Courses are specified with a “WI” section designation in SIS, for example: SOC 200-07WI.

Approved Civic Engagement Courses are specified with a "C" section designation in SIS, for example: HIS 102-05C.

A Writing Intensive Course, called a “WIC” for short, is a course that engages students in a variety of writing activities to enhance learning and improve writing abilities. WICs include many writing activities but they are not always writing courses. The content is the same for both WIC and non-WIC courses; however, writing improvement is one of the learning goals of the WIC.

A Civic Engagement Course is a course that engages students in a variety of activities focused on fostering a commitment to democracy and diversity, and encourages all students to engage in the civic life of their communities through collaborative, creative, and critical problem-solving. The content is the same for both civic engagement and non-civic engagement courses.

Students enrolled in the Associate of Arts (AA) and Associate of Science (AS) degree programs at PVCC can choose from a wide variety of designated WICs and Civic Engagement courses listed in each program’s degree requirements. Students in Associate of Applied Science (AAS) programs are required to take program-specific WICs and Civic Engagement courses that are embedded into their program requirements.

The Admissions and Advising Center compiles a list of WICs and Civic Engagement courses each semester to make the process of finding these courses more convenient.

Have questions? Please work with an Academic Advisor to make sure that you have the correct WIC and Civic Engagement course you need to graduate from your program of study.
