What is Network2Work?
Network2Work, formerly known as the Charlottesville Works Initiative (CWI), is a job network that connects job seekers to the skills and resources they need to become valued employees and helps employers find the quality employees they need for their companies. Network2Work is a partnership between PVCC and the Charlottesville Regional Chamber of Commerce.

Why is Network2Work important?
In Charlottesville and Albemarle, 5,600 families, or 17 percent, do not make enough money to pay for the essentials of life—food, shelter, clothing, utilities and the added costs associated with working—childcare and transportation. The goal of PVCC’s Network2Work Program is to help these families become self-sufficient by identifying jobs within their reach and positioning them to secure and excel in those jobs.

What areas are served by this program?
PVCC’s program serves the college’s entire service region, which includes the city of Charlottesville and the counties of Albemarle, Buckingham, Fluvanna, Greene, Louisa, and Nelson.

Learn more at www.pvcc.edu/network2work.
PVCC offers two culinary arts options at its Jefferson School Center satellite location.

**Pharmacy Technician Program Spotlight**

The 29-credit Pharmacy Technician Career Studies Certificate prepares students to work in various pharmacy settings under the direct supervision of a pharmacist. Pharmacy technicians collect the information necessary to fill a prescription; measure amounts of medication; package and label prescriptions; organize inventory of medications or supplies; accept payment for prescriptions and process insurance claims; and enter customer information into a computer system.

The program is composed of classroom, simulation, and hands-on experiences that prepares students to perform well on the certification exam in addition to entering the pharmacy technician profession successfully. PVCC’s Pharmacy Technician Program is accredited by the American Society of Health-Systems Pharmacists and can be completed in two to three semesters.

WORKFORCE SERVICES & CONTINUING EDUCATION
PVCC’s Workforce Services Division provides programming and short-term training for industry certification, professional development, career advancement, personal enrichment, and youth career education. Popular programs include allied healthcare offerings such as phlebotomy and certified nursing assistant (CNA); viticulture and craft brewing; unmanned aerial systems (UAS); commercial driver’s license (CDL) training; welding; and business courses. Learn more at www.pvcc.edu/workforce.

According to the National Skills Coalition, almost half of the job openings in Virginia between 2010 and 2020 will require some post-high school education, but not necessarily a bachelor’s degree. To land these jobs applicants need industry-recognized credentials, certifications, and licenses. These programs are called “FastForward” because they help Virginians train for fulfilling new careers in weeks or months, instead of semesters or years. FastForward programs are offered at PVCC and other VCCS colleges. Limited funding is available for select programs. See a list of eligible programs or learn more at www.pvcc.edu/fastforward.

I found myself wanting more from my work day and started to explore my options. I found my way to nursing by way of my daughter who was born prematurely (23 weeks). During her hospitalization, I became very close with the nursing staff. They inspired me to pursue a career as a nurse. I want to thank you for making a way for adult students to pursue their dreams!
