How can I get my high school diploma if I didn’t graduate from high school?

In Virginia, an adult who has not completed high school can earn a diploma in two ways: by passing the GED® test or by completing the National External Diploma Program (NEDP). The GED®, or high school equivalent program, can be completed through on-campus, face-to-face classes or online. The NEDP Program is only available online.

What is the GED® Program?
Offered through TJACE@PVCC, the GED® Program prepares students to take the national GED® test. The GED® test measures a student’s educational level on a variety of core subjects including math, science, social studies and language arts. By passing the GED® test, students are demonstrating that they have the same academic knowledge as a high school graduate.

What is the NEDP Program?
The NEDP is an online, self-paced program that allows students to use the skills they’ve gained from life and work experience to demonstrate reading, writing and math skills at the high-school level. This online program is for adults and offers the flexibility to earn a diploma for those employed full-time or in job training.

FACE-TO-FACE CLASS OPTIONS

GED® CLASSES
GED® classes help students focus on improving skills in reading, writing and math as they prepare to take and pass the GED® test. Instruction includes the GED® subject areas—math, science, social studies and language arts—as well as computer and job skills. Face-to-face classes are offered at PVCC and throughout the Central Virginia region including the counties of Albemarle, Fluvanna, Greene, Louisa and Nelson, as well as the city of Charlottesville. Learn more about GED® classes at www.pvcc.edu/ged.

ONLINE CLASS OPTIONS

GED® TO GO!
GED® to Go! is a flexible online learning option that provides online access to GED® classes and prepares students to successfully take and pass the GED® test. Students need to have, or have access to, a computer with Internet access, basic computer skills, and need to be able to devote a minimum of six hours per week to the program. This class is free—there is no fee to take the GED® to Go! class. Learn more at www.pvcc.edu/ged.

NATIONAL EXTERNAL DIPLOMA PROGRAM (NEDP)
Students who enroll in the NEDP Program must be self-motivated and learn independently, as the program is online and there is no face-to-face, in-person instruction. Student work is reviewed through one-to-one appointments with academic advisors. Learn about the NEDP at www.pvcc.edu/nedp.

ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL)

What is the ESOL Program?
TJACE@PVCC offers English classes for students of all levels, ranging from little to no ability to speak, read or write English, to those who are ready to learn more advanced reading and writing skills. All classes incorporate civics education and job skills into the course. These classes allow students to progress at their own pace through a combination of teacher-directed lessons and at-home practice.

What types of ESOL classes are offered?
TJACE@PVCC offers four levels of adult ESOL classes. ESOL class levels go from low beginner to high intermediate. There is an advanced writing class for intermediate- to high-level students who wish to develop their grammar, mechanics and organization for college and career writing. Learn more at www.pvcc.edu/esol.
What is Network2Work?
Network2Work, formerly known as the Charlottesville Works Initiative (CWI), is a job network that connects job seekers to the skills and resources they need to become valued employees, and helps employers find the quality employees they need for their companies. Network2Work is a partnership between PVCC and the Charlottesville Regional Chamber of Commerce.

Why is Network2Work important?
In Charlottesville and Albemarle, 5,600 families, or 17 percent, do not make enough money to pay for the essentials of life—food, shelter, clothing, utilities and the added costs associated with working, such as childcare and transportation. The goal of PVCC’s Network2Work Program is to help these families become self-sufficient by identifying jobs within their reach and positioning them to secure and excel in those jobs.

What areas are served by this program?
PVCC’s program serves the college’s entire service region, which includes the City of Charlottesville and the counties of Albemarle, Buckingham, Fluvanna, Greene, Louisa and Nelson.

Why she chose PVCC: "I chose PVCC because I knew that I wasn't ready to go away to a university, or pay for one, just yet. I recognized that PVCC was a place where I could develop the skills I needed for my career, as well as grow as a person. I even switched my major to Engineering because I was able to take a diverse range of classes and try it out."

What she likes best about PVCC: "I love the amount of ambition the students here have. Everyone is focused on their goals and it shows everywhere you go. Everyone that I meet in my classes is so driven and it inspires me to keep going no matter what obstacles are thrown in my way."

Future plans: "I have a year left here at PVCC before I graduate with my Associates degree, but then I am looking forward to transferring to a four-year institution."

SPOTLIGHT
Carrie Wood
Associate Professor, Accounting

Credentials: M.S., Accounting, Strayer University; B.S., Accounting, Strayer University

What she teaches: Principles of Accounting I & II

What she likes best about teaching at PVCC: "PVCC’s strong focus on student success and access shows in the multitude of resources offered to help students achieve their goals and in the diversity of the student body. The different backgrounds and experiences of students leads to engaging class discussions where students can learn from each other. I strongly believe in the pursuit of lifelong learning and PVCC provides an environment that supports this for all students."

Why her program is important: “Accounting is the ‘language of business’ and all companies utilize financial information every day to make decisions that impact our global economy. Knowledge of this field not only benefits those entering the business world, but also anyone who wants to have a better understanding of financial information for making investment decisions.”
